## **SONIC BIODIESEL PARTNERS WITH FLORIDA BIODIESEL**

CLEARWATER, FL, MAY 7, 2008: Sonic Biodiesel proudly announces it's partnership with Florida Biodiesel, Inc. to distribute Residential, and Commercial Biodiesel Production Systems.

Sonic partnered with Florida Biodiesel due to the extensive nature of their capabilities and distribution initiatives.

"Currently Florida Biodiesel products and systems reach consumers through more than 7,000 national and international installations worldwide. Florida Biodiesel serves more than 3,000 customers and their systems generate millions of gallons of Biodiesel annually" states Bruce Burke Chief Executive Officer for Sonic Biodiesel.

"Sonic Biodiesel like Florida Biodiesel has focused on meeting the needs of our customers. In addition, our east and west coast

PayZone Partners with LocusPage 2

distribution centers provide us the ability to offer our client's fast, efficient service no matter where they're located.

"Based on the similarities between our respective companies we believe Sonic Biodiesel and Florida Biodiesel will make excellent partners" reports Burke.

### **ABOUT SONIC BIODIESEL**

Sonic Biodiesel designs, manufactures and sells residential and commercial Biodiesel production systems. Our fumeless processor design provides the safest, fastest and most cost effective means of making Biodiesel.

Sonic Biodiesel produces Ultrasonic, Automated, Continuous Batch and Manual Systems for the production of Biodiesel fuel. From individual consumers to commercial production Sonic Biodiesel has a system that meets every budget and production requirement.

Sonic Biodiesel provides information and resources to aid in the production of Biodiesel energy. Our principle purpose is to provide resources that save money and our environment.
